Frontend Frameworks/Libraries: Bootstrap, jQuery, TailwindCSS
Tools & Technologies: Git, GitHub, Visual Studio Code
Other Skills: Responsive Design, Cross-Browser Compatibility, DBMS

Projects

Myntra Functional UI clone | 🔗   **Mar'24**
- Developed a responsive clone of the Myntra website using HTML5, CSS3, and JavaScript, ensuring a seamless user experience across devices.
- Implemented key features such as dynamic product listings and a shopping cart , from which you can add and remove selected items and update the total amount.
- Tech Stack: **HTML5, CSS3 and JavaScript.**

Drum Kit | 🔗   **Apr'23**
- Build an interactive drum kit web application that allows users to play different drum sounds by clicking buttons or pressing corresponding keyboard keys.
- Created a simple layout with drum pads (buttons) labeled with corresponding keys.
- Added **event listeners** to trigger drum sounds when buttons are clicked or keys are pressed, and implement visual feedback on key press.
- Tech Stack: **HTML, CSS and JavaScript.**

Work Experience

The Sparks Foundation | Web Development Intern   **Oct'22 - Nov'22**
- Worked on minor web development projects during a one-month internship at The Sparks Foundation, focusing on frontend development with HTML, CSS, and JavaScript.
- Completed tasks given by the Sparks Foundation.
