Projects

Portfolio Website | [Link](#)

May 2024

- Built a personal portfolio website using React.js and TailwindCSS to showcase projects, skills, and contact information.
- Animated elements with Framer Motion, creating smooth transitions for the "Download Resume" button, section reveals for experience, skills, and education, and optimizing the interface for mobile screens.

Myntra Functional UI clone | [Link](#)

March 2024

- Designed and implemented a responsive Myntra UI clone with HTML5, CSS3, and JavaScript, ensuring seamless cross-device functionality.
- Created dynamic product listings and a shopping cart feature, enabling users to add/remove items and update the total amount in real time.
- Improved user interactivity by 30% through efficient DOM manipulation.

Drum Kit | [Link](#)

April 2023

- Developed an interactive drum kit web application using HTML, CSS, and JavaScript, allowing users to play drum sounds via button clicks or keyboard inputs.
- Added event listeners to trigger drum sounds and implemented visual feedback for real-time interaction.
- Optimized performance to ensure a smooth user experience with a load time of under 2 seconds.

Work Experience

Abhyaz | Web Developer Intern

October 2024 - Present

- Design and optimize website layouts using Zoho Sites, enhancing user interface consistency and reducing page load times by 20%.
- Analyze heatmaps and user session recordings to implement data-driven navigation improvements, reducing bounce rates by 10%.
- Collaborate with cross-functional teams to meet and exceed project deadlines, boosting productivity by 25%.

The Sparks Foundation | Web Development Intern

October 2022 - November 2022

- Contributed to 2+ web development projects, focusing on building responsive and interactive web pages.
- Utilized frontend technologies to deliver 5+ optimized pages with 100% cross-browser compatibility, enhancing user experience.

Education

Integral University Lucknow, India
